Art Unit: 2653

1. The specification is objected to as failing to provide proper antecedent basis for claims 1-3. See 37 CFR 1.75(d)(1) and MPEP §608.01(o). The phrases the "first" and "second" insulating layers fail to be specifically disclosed in the specification.

2. Claims 1-3 are rejected under 35 U.S.C. §112, first paragraph, as directed to subject matter which was not described in the specification in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention. See previous paragraph.

3. Because of the numerous references to insulating layers in the specification and as seen in, for example figure 25a, several layers of coil construction are embedded/associated with insulating layers, the scope of applicant's invention cannot be determined with any precision to allow a meaningful prior art search.

4. The examiner greatly appreciates the applicant's inclusion of the prior art documents which were referred to in paragraph 7

Art Unit: 2653

of the first office action. The examiner was unable to recover these documents from the original allowed paper files.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. J. HEINZ
